# INTRODUCTION

## Dates extrêmes

an VII-1955 (dates réelles an IV-février 1956, mais les occurrences débordant la période an VII-1955 sont très rares).

Les archives de la conservation de Montdidier antérieures à 1940 ont été détruites lors de la Seconde Guerre mondiale.

Les archives de la conservation de Doullens s'interrompent en 1927 en raison de sa suppression au 30 avril<sup>1</sup> et de son rattachement à la conservation d'Abbeville.

## Niveau de description

Ensemble de fonds.

## Importance matérielle

1070 m.l. environ (23.205 articles).

<i>Conservation</i>	<i>Registres présents</i>	<i>Registres en déficit par rapport à l'inventaire tenu par la conservation</i>	<i>Métrage</i>
Abbeville	7156	0	331
Amiens	8437	268 lacunaires 216 éliminés (brûlés et irrécupérables)	395.5
Doullens	2022	0	83.5

Péronne	5211	6 lacunaires	237
Total	23.205	490	1070

## Service producteur

Conservations des hypothèques d'Abbeville, d'Amiens, de Doullens, de Montdidier et de Péronne.

## Histoire administrative<sup>2</sup>

### Présentation

Les documents hypothécaires sont d'une grande importance tant pour la recherche historique que pour les recherches sur le droit des sols. Ils permettent aussi d'appréhender l'histoire de l'endettement et révèlent un pan de l'histoire socio-économique. Le recours à l'hypothèque, au moins dans la première partie du XIXe siècle, est consécutif à l'endettement des campagnes, suite, par exemple, aux mauvaises récoltes et aux mauvais rendements. L'étude des registres d'inscriptions des privilèges et hypothèques est alors capitale. Sur la propriété foncière, les registres de transcription constituent un passage obligé.

En outre, les tables et répertoires recensant des milliers de personnes sont d'un intérêt primordial pour toute recherche généalogique. De plus ne sont pas uniquement concernées les personnes physiques, mais aussi les personnes morales : communes, entreprises, sociétés, institutions, congrégations, compagnies de chemin de fer, etc.

La recherche hypothécaire est fastidieuse et difficile à expliquer à des lecteurs néophytes qu'il faut souvent suivre pendant tout le déroulement de la recherche. Il est donc fortement

<sup>1</sup> Décret du 1<sup>er</sup> octobre 1926 portant suppression de bureaux de conservation des hypothèques, dans le cadre de la grande réforme administrative de 1926.

<sup>2</sup> Le texte de cette partie est extrait de l'introduction du répertoire numérique de la sous-série 4 Q des Archives départementales d'Indre-et-Loire, rédigé par Georges-François POTTIER (2014).

recommandé de lire attentivement l'introduction suivante et principalement la méthodologie de recherche.

### **Principe général**

Une hypothèque est un droit réel qui grève un immeuble bâti ou non bâti pour garantir le paiement d'une créance. Elle donne au créancier l'assurance de pouvoir être payé sur le prix de la vente forcée de l'immeuble grevé si la dette n'est pas acquittée à la date prévue (droit de préférence) et même si le bien hypothéqué a changé de mains (droit de suite). L'inscription s'opère sur des registres publics tenus par un agent de l'État qui doit en délivrer extrait à tout citoyen qui lui en fait la demande. Le rôle de cet agent de l'État est donc double : il perçoit les taxes au profit du Trésor à l'occasion des formalités qu'il accomplit et il est préposé à la tenue des registres. Il doit procéder à l'inscription des créances hypothécaires, à la transcription des actes portant mutation de propriété immobilière, aux changements à opérer dans les inscriptions existantes par suite de subrogations<sup>3</sup>, de cessions d'antériorité, de renouvellement, et à la délivrance des états d'inscriptions hypothécaires, des certificats et copies d'actes transcrits.

L'enregistrement des hypothèques se fait toujours dans l'arrondissement où se trouve le bien, même si le notaire, le propriétaire ou l'acheteur n'y réside pas.

Les fonds de terre, les bâtiments, l'usufruit de ces objets, les mines, les cautions assimilées à des immeubles sont susceptibles d'hypothèques.

L'hypothèque est de trois ordres, légale, judiciaire ou conventionnelle :

- L'hypothèque légale qui résulte de la loi est un droit que la loi accorde à un créancier sans qu'il ait à manifester sa volonté ; elle bénéficie aux femmes sur les biens de leurs maris et aux mineurs sur ceux de leurs tuteurs, à l'architecte et à l'entrepreneur.
- L'hypothèque judiciaire résulte d'un jugement.
- L'hypothèque conventionnelle est celle qui résulte du libre consentement des parties. Le but de la formalité de l'hypothèque est d'assurer la publicité des actes. Cette formalité donne droit à la perception d'un droit par le Trésor public.

### **Un peu d'histoire**

Tout d'abord outil fiscal, le contrôle des actes est mis en place progressivement sous l'Ancien Régime.

1539. L'ordonnance de Villers-Cotterêts rend obligatoire dans tout le royaume l'insinuation sur les donations entre vifs, c'est-à-dire la reproduction des actes sur un registre public. Cette insinuation donnait authenticité à l'acte de transfert de propriété, mais n'impliquait pas l'idée de publicité visant à révéler les charges ou hypothèques qui pèsent sur les immeubles. L'acquéreur ou le créancier n'était jamais certain que celui avec lequel il traitait n'avait pas déjà vendu l'immeuble à autrui ou que cet immeuble n'était pas déjà grevé d'autres hypothèques.

1581. Afin de vérifier la régularité des hypothèques, l'État établit par ordonnance la tenue de registres spéciaux. Cette ordonnance ne fut pas exécutée, tout comme celle prise quelques années plus tard, en 1606, par Henri IV.

1669. L'édit du roi pour le contrôle des Exploits prescrit que tous les exploits<sup>4</sup> seront enregistrés. Il est alors installé un bureau dans toutes les juridictions royales et seigneuriales avec à la tête un contrôleur qui enregistre les protêts<sup>5</sup> de lettres, billets de change et sommations<sup>6</sup>.

1673. Le projet hypothécaire de Colbert, dans l'édit du 21 mars 1673 destiné à protéger les créanciers par la publicité de l'hypothèque, se heurte à une vive opposition des grandes familles qui craignent de voir leurs dettes exposées. Le titre de conservateur des hypothèques

---

<sup>3</sup> Subrogation : transmission à une chose des qualités juridiques de celle qu'elle remplace dans un patrimoine.

<sup>4</sup> Exploit : acte juridique signifié par une personne mandatée pour assigner quelqu'un.

<sup>5</sup> Protêt : acte authentique par lequel le porteur d'une dette fait constater qu'il n'a pas été payé à l'échéance.

<sup>6</sup> Sommatation : acte par lequel on enjoint à un débiteur de payer ce qu'il doit.

est donné aux officiers chargés de recevoir les oppositions sur les rentes royales formulées par les créanciers des propriétaires de ces rentes. L'édit est révoqué en 1676. De cet édit ne reste que le titre de « *conservateur des hypothèques sur les offices* » pour les officiers chargés de recevoir les oppositions formulées par les créanciers.

1693. Un édit royal impose pour chaque bailliage ou sénéchaussée l'établissement d'un greffe chargé d'enregistrer les hypothèques. Mais trop d'intérêts particuliers – débiteurs comme créanciers – s'opposaient à la mise en place de la réglementation, qui supprimait de fait la clandestinité ou le secret des transactions.

1701. Le roi rend obligatoire la formalité d'ensaisinement<sup>7</sup> pour les actes translatifs de propriété des terres tenues en fief ou en roture<sup>8</sup> dans la mouvance du roi.

1706. Un office de conservateur des hypothèques est créé dans chaque généralité. Les conservateurs doivent ouvrir un greffe afin d'inscrire les titres de propriété, les hypothèques prises sur ces titres, les saisies et oppositions.

1771. L'édit du roi « *portant création des conservateurs des hypothèques sur les immeubles réels et fictifs et abrogation des décrets volontaires* » de juin 1771 institue des offices de conservateur des hypothèques auprès de chaque bailliage. Tout créancier qui prétend avoir hypothèque sur un immeuble doit former opposition auprès du conservateur. L'acquéreur d'un immeuble doit prendre chez le conservateur des hypothèques une lettre de ratification qui garantit qu'aucun créancier ne s'est porté acquéreur. Cette lettre purge de toute hypothèque.

Les hypothèques n'ont pas, sous l'Ancien Régime, de caractère public. Secrètes, elles ouvrent la porte à bien des fraudes et entravent le bon fonctionnement du crédit foncier. Les tentatives pour protéger les créanciers sont souvent dénoncées comme des mesures purement fiscales. L'absence de définition des biens et le manque de publicité sont également des causes de l'échec de la formalité hypothécaire sous l'Ancien Régime.

1791. Les décrets des 27 janvier et 4 février 1791 concernent les conservateurs des hypothèques, les greffiers expéditionnaires et l'exercice des chancelleries établies près des tribunaux de district.

1795. La loi promulguée le 9 messidor an III (27 juin 1795) supprime la clandestinité des hypothèques et établit, entre autres, la publicité des hypothèques en instituant dans chaque chef-lieu de district une conservation chargée d'inscrire les actes hypothécaires sur des registres. Mais cette loi ne sera jamais appliquée. La question de la publicité foncière a divisé l'opinion et les juristes autour du secret des patrimoines.

1798. Les bases du nouveau régime hypothécaire sont mises en place par la loi du 11 brumaire an VII (1<sup>er</sup> novembre 1798), promulguée le 3 frimaire. Cette loi rend obligatoires l'inscription des créances, mais aussi la transcription des actes de mutation de tous les biens susceptibles d'hypothèques et ordonne la publicité des transferts immobiliers à titre onéreux ou gratuit (les donations étant soumises à la formalité de l'insinuation dans les bureaux de l'Enregistrement).

1799. Ce nouveau régime est organisé par la loi du 21 ventôse an VII (11 mars 1799) qui prévoit la mise en place d'un « *bureau de conservation des hypothèques dans chaque arrondissement de tribunal de police correctionnelle* », terme utilisé jusqu'à la convention de l'an VIII. Le ressort des bureaux des hypothèques devient celui de l'arrondissement administratif, la conservation des hypothèques est remise à la Régie nationale de l'enregistrement qui en confie l'exécution aux receveurs de l'enregistrement. Puis les lois du 6 messidor an VII et du 28 ventôse an XII complètent le dispositif hypothécaire.

1804-1824. Le Code civil de 1804, tout en affirmant le principe de la publicité, rend facultative la transcription des transferts à titre onéreux et maintient celle des donations. Puis les lois des 24 mars 1806, 24 juin 1808, 21 septembre 1810, 28 avril 1816, 16 juin 1824

---

<sup>7</sup> Ensaisinement : acte par lequel on met quelqu'un en possession d'un bien immobilier.

<sup>8</sup> Roture : redevance due pour une terre à défricher ou à cultiver.

contiennent plusieurs dispositions relatives à l'inscription et à la transcription. Telle est la législation en la matière pendant la première moitié du XIX<sup>e</sup> siècle.

Il faut attendre cinquante ans pour une réforme substantielle imposée par les vastes opérations immobilières (développement de la construction et mise en valeur des terres) et la création des sociétés de crédit et, surtout, celle du Crédit Foncier en 1852.

1855. La loi du 23 mars 1855 porte plus spécialement sur la transcription, étendant la formalité à tous les actes entre vifs translatifs de propriété immobilière, à certains jugements, aux baux de plus de 18 ans et à tous les actes constitutifs d'usage ou de servitude. Elle rétablit l'obligation de transcrire les actes constitutifs de droits réels immobiliers à titre onéreux, même ceux non susceptibles d'hypothèques. En effet, le Code civil de 1804 avait rendu facultative la transcription de ces actes à titre onéreux. Toutefois, les mutations par décès et les partages ainsi que certains droits tels que ceux de superficie ou d'emphytéose<sup>9</sup> échappent à la publicité en raison de leur caractère purement personnel. Suivent les lois du 21 mai 1858, du 5 janvier 1875 et le décret réglementaire du 28 août 1875.

1918. Les actes doivent désormais comporter mention des références cadastrales.

1921. La loi du 24 juillet 1921 simplifie les formes de la transcription en substituant à la copie manuscrite faite par les employés de la conservation des hypothèques, le dépôt de la copie de l'acte par la personne qui requiert la publicité. Ces copies sont alors reliées chronologiquement, ce qui n'était pas le cas auparavant.

Années 1930. Série de réformes : la loi du 30 octobre 1935 étend la transcription aux mutations par décès, héritages et legs ou jugements, quel que soit le nombre de successibles. Le décret-loi du 17 juin 1938 ordonne la transcription des commandements de saisies immobilières.

1955. La grande réforme de la publicité foncière date du décret 55-22 du 4 janvier 1955 portant réforme de la publicité foncière (journal officiel du 7 janvier 1955). Bien que la sous-série 4 Q n'intègre pas les documents postérieurs à cette réforme, quelques mots sont nécessaires sur cette rupture. La publicité foncière est alors l'ensemble des règles qui concourent à assurer la collecte, la conservation et la délivrance d'informations juridiques sur les immeubles, afin de permettre aux tiers de savoir quelle est la situation juridique des biens faisant l'objet de leurs conventions. Le terme de publication a été substitué à celui de transcription.

Depuis le 1<sup>er</sup> janvier 1956, la publicité foncière s'opère, non plus dans un répertoire pourvu de tables, mais dans un fichier immobilier. Ce fichier comprend trois principales catégories de fiches :

1. les fiches personnelles de propriétaires, tenues par commune. Les fiches des personnes physiques et celles des personnes morales font l'objet d'un classement distinct.
2. les fiches d'immeuble tenues pour chaque immeuble ou partie d'immeuble.
3. les fiches parcellaires, fiches de renvoi aux fiches personnelles de propriétaire et aux fiches d'immeuble.

D'autres fiches peuvent être créées : fiches récapitulatives de propriétaires, fiches parcellaires de numéros de rue, etc.

### **Modalités d'entrée**

Les archives des services chargés de la publicité foncière ont été versées aux services d'archives départementaux en application de l'article 10 du décret n° 55-22 du 4 janvier 1955 portant réforme de la publicité foncière, concernant les registres de plus de 50 ans.

---

<sup>9</sup> Emphytéose : droit consenti par une personne ayant la capacité d'aliéner sur un bien foncier en échange d'une redevance, droit qui confère au preneur un droit réel susceptible d'hypothèque.

Aux Archives départementales de la Somme, le premier versement (conservation de Péronne) a été effectué le 27 juillet 1955.

En application du décret du 4 janvier 1955, l'arrêté interministériel du 9 avril 1956 crée à Amiens, dans les locaux dépendant des Archives départementales, un centre spécial d'archives hypothécaires destiné à recevoir les archives des conservations des hypothèques du département de la Somme. À cet effet, des rayonnages métalliques destinées aux archives hypothécaires versées en 1956, comptant 12.651 registres, sont installés en avril 1958. Seuls les conservateurs des hypothèques étaient habilités à délivrer des copies et extraits des documents de moins de cent ans détenus par les centres spéciaux d'archives.

Les derniers versements ont eu lieu en 2011 et 2012. Provenant de la conservation des hypothèques d'Abbeville, 1385 registres, soit un peu plus de 60 ml, ont été versés en février 2011. En 2012, ce sont 540 registres (27 ml) d'Amiens, 117 (6 ml) de Montdidier et 611 (31 ml) de Péronne qui ont intégré les collections des Archives de la Somme.

La sous-série 4 Q est close au 1<sup>er</sup> janvier 1956, date d'entrée en vigueur du décret n° 55- 22 du 4 janvier 1955 portant réforme de la publicité foncière qui a pour effet la clôture des répertoires, tables et registres indicateurs et l'ouverture d'un fichier immobilier comme instrument d'accès aux registres.

### Historique de la conservation et du classement

Les archives versées en 1956 n'ont pas été cotées avant les années 2010. Les archives versées postérieurement en 1956 avaient fait l'objet d'une cotation en série W.

La reprise d'ensemble de la sous-série a été réalisée entre 2011 et 2016, sa cotation en 4 Q ainsi que son dépoussiérage (en 2015) et son conditionnement. Chaque conservation forme une sous-série distincte, subdivisant la sous-série 4 Q en cinq sous-ensembles, comme cela est préconisé par la circulaire AD 98-8 du 18 décembre 1998 (Instruction sur le classement et la cotation des archives dans les services d'archives départementales).

Il existe des lacunes dans le fonds de la conservation d'Amiens, et surtout dans celui de Montdidier suites aux dégâts occasionnés lors de la Seconde guerre mondiale.

### Présentation du contenu

#### Mode commun de recherche

Pour la recherche, le cheminement pour le cas le plus classique est celui-ci :

Registre indicateur → Table alphabétique → Répertoire des formalités → Transcriptions ou Inscriptions.

#### Documents disponibles sous forme numérique le site internet<sup>10</sup>

Conservation	Registres indicateurs	Tables alphabétiques	Répertoires des formalités
Abbeville	<i>oui</i>	<i>oui</i>	<i>oui</i>
Amiens	<i>non</i>	<i>non</i>	<i>non</i>
Doullens	<i>en cours de numérisation</i>	<i>en cours de numérisation</i>	<i>en cours de numérisation</i>
Montdidier	<i>en cours de numérisation</i>	<i>en cours de numérisation</i>	<i>en cours de numérisation</i>
Péronne	<i>oui</i>	<i>oui</i>	<i>oui</i>

<sup>10</sup> <http://recherche.archives.somme.fr/>. Situation au 1<sup>er</sup> mars 2020.

### **Les différents types de registre<sup>11</sup>**

Il existe deux grands types de registres, les registres d'ordre et les registres de formalités.

Les registres d'ordre

- 1° les registres indicateurs
- 2° les tables alphabétiques
- 3° les répertoires

Les registres de formalités

- 1° les inscriptions
- 2° les transcriptions
- 3° les saisies et dénonciations de saisies

#### ***Les registres d'ordre***

Sous cette appellation figurent des documents de travail internes à la conservation des hypothèques qui servent de clé d'accès aux registres de formalités dont ils sont indissociables. Ils sont de trois types : les registres indicateurs, les tables alphabétiques et les répertoires.

##### *1°- Les registres indicateurs de la table alphabétique du répertoire de formalités hypothécaires.*

Ils servent à utiliser plus efficacement les tables alphabétiques qui, dans les faits, ne suivent pas rigoureusement l'ordre alphabétique. Les noms patronymiques des individus désignés dans ces registres indicateurs sont classés par ordre strictement alphabétique, sans les prénoms, avec renvoi au numéro de volume de la table alphabétique du répertoire où sont portés les groupes de noms identiques. Ainsi, une recherche au nom de Roy peut renvoyer à la table alphabétique L, pour Leroy.

Toutefois, il faut savoir que la notation des patronymes est faite plutôt phonétiquement que dans le strict respect de l'orthographe.

Les communes sont souvent classées à leur nom, par exemple Villandry, et non au mot « commune ».

##### *2°- Les tables alphabétiques du répertoire des formalités hypothécaires.*

Dans chaque table, tous les noms des individus portés au répertoire sont classés par ordre alphabétique avec prénom, profession, domicile et indication du numéro du volume et du numéro de la case du répertoire des formalités hypothécaires dans lequel ils ont un compte ouvert.

Certains noms figurent non seulement à leur emplacement alphabétique mais aussi ailleurs dans les registres ; faute de place, des renvois et compléments sont faits soit sur d'autres pages inutilisées ou partiellement utilisées, soit en fin de registre, ou encore sur un registre complémentaire. Comme pour les registres indicateurs, la notation des patronymes se fait plutôt phonétiquement que dans le strict respect de l'orthographe. De plus, dans les faits, la table ne suit pas rigoureusement l'ordre alphabétique. Sans oublier les noms dans les tables alphabétiques supplémentaires.

Il est fortement recommandé, comme indiqué ci-dessus, de passer par les registres indicateurs.

Enfin, certains noms de propriétaires ne figurent pas, selon les époques, dans les tables. Il en est ainsi lorsque l'hypothèque n'est pas obligatoire, par exemple lors de mutation par décès, même après la réforme de 1855.

De même, et toujours selon les époques, les adjudicataires ne sont pas systématiquement inscrits.

---

<sup>11</sup> Le texte de cette partie, à partir de cet endroit, est extrait de l'introduction du répertoire numérique de la sous-série 4 Q des Archives départementales d'Indre-et-Loire, rédigé par Georges-François POTTIER (2014). Quelques passages spécifiques aux archives de Touraine ont été omis.

3°- Les répertoires des formalités hypothécaires.

Les répertoires, tenus dès la loi du 21 ventôse an VII, ne sont accessibles qu'au moyen des tables alphabétiques.

Dans chaque répertoire, le classement est fait par numéro de case (ou compte) numérotée selon l'ordre numérique. Chaque case correspond à une personne physique ou morale, qu'elle soit désignée dans les bordereaux de créance, ou qu'elle comparaisse aux actes transcrits à quelque titre que ce soit (acquéreurs, locataires, vendeurs, bailleurs, donataires, donateurs...). Une case (ou compte) est strictement individuelle ; elle ne peut être ouverte pour plusieurs héritiers ou pour un couple. Les femmes sont mentionnées sous leur nom de jeune fille. Chaque case donne la liste de tous les actifs et passifs d'un individu.

À l'actif correspondent les actes de mutation (acquisitions, vente, saisie, baux, donation, péremption...) et au passif, les inscriptions, radiations et renouvellements avec leurs dates et indications des registres de formalités (inscription et transcription). Les références des transcriptions sont, généralement, en page gauche, celles aux inscriptions sur celle de droite.

De plus, quelques fois, dans la page des transcriptions de ces répertoires, le renvoi ne se fait pas à un registre de transcription, mais à un registre de saisies et dénonciations de saisies.

**Les registres de formalités**

1°- Les registres des inscriptions hypothécaires.

Ils notent les créances donnant naissance à une prise d'hypothèque sur un bien, avec divers renseignements sur ce bien, le montant de la créance, la date d'exigibilité, les personnes concernées. Certains types d'actes, comme les rentes, sont inscrits mais non transcrits.

Le créancier réalise l'inscription dans le bureau de l'arrondissement où sont situés les biens. La date du dépôt de l'inscription permet d'établir un rang entre les différents créanciers. Le créancier remet l'original de l'acte donnant naissance à l'hypothèque. Sur le registre d'inscription sont inscrites les créances dans l'ordre chronologique. On y trouve les noms, prénoms et domiciles des créanciers et du débiteur, la date et la nature du titre créant l'hypothèque, le montant des créances, l'indication des immeubles grevés d'hypothèque. Les inscriptions ne conservent l'effet de l'hypothèque que pendant dix ans. Pour conserver une hypothèque, on doit, avant l'expiration du délai de dix ans, renouveler l'inscription. La radiation d'une inscription consiste dans une mention en marge, dans une colonne réservée à cet effet.

2°- Les registres des transcriptions des actes translatifs de propriété d'immeubles.

Dans ces registres sont transcrits intégralement tous les actes sous seing privé et notariés translatifs de propriété d'immeubles situés dans le département, même si aucune hypothèque ne grève ce bien. Avant la loi du 30 octobre 1935, les donations, mutations par décès, legs et héritages ne sont pas obligatoirement enregistrés. Seules les mutations d'immeubles à titre onéreux, celles qui résultent de vente volontaire, sont assujetties à la transcription. À ce sujet, la jurisprudence et les instructions ont rendues des dispositions spécifiques. Les actes sont classés par le numéro d'ordre attribué dans la case du répertoire des formalités hypothécaires. L'acte peut, selon sa longueur, prendre plusieurs pages, voire être transcrit sur deux registres. Certaines indications, dans une colonne gauche de la page font renvoi au numéro du répertoire des personnes concernées par le bien, à un titre ou à un autre. Les registres des transcriptions contiennent les actes notariés passés dans le département et hors département. Toutefois rappelons que certains types d'actes, comme les rentes, sont inscrits mais non transcrits.

3°- La transcription des saisies et dénonciation de saisies fait l'objet de registres et de tables spécifiques

Registre d'enregistrement des dénonciations de saisies immobilières. Indication du volume du répertoire des formalités.

Registre de transcription des saisies immobilières. Consigné par ordre chronologique. La saisie immobilière et l'exploit de dénonciation doivent être transcrits dans la quinzaine de la

dénonciation au bureau des hypothèques de la localisation des biens. Ces registres ont été créés à compter du 8 mai 1806 par l'article 667 du Code de procédure civile.

### **Évaluation, tri et éliminations, sort final**

216 registres de transcriptions de la conservation d'Amiens, essentiellement des années 1881 à 1920, ont été éliminés fin 2019. Ces registres avaient été brûlés et n'étaient pas récupérables.

### **Mode de classement**

Les registres sont classés dans l'ordre des typologies de l'instruction n°DAF/DPACI/RES/2009/025 du 25 novembre 2009, c'est-à-dire les registres d'ordre (registres indicateurs, tables du répertoire des formalités et répertoires des formalités hypothécaires) et les registres de formalités (registres des inscriptions, des transcriptions et des saisies).

Les registres sont classés dans l'ordre alphabétique de chaque conservation des hypothèques, à savoir :

- 4Q1 - Conservation d'Abbeville
- 4Q2 - Conservation d'Amiens
- 4Q3 - Conservation de Doullens (jusqu'à sa fermeture en 1927)
- 4Q4 - Conservation de Montdidier
- 4Q5 – Conservation de Péronne

### **Registres indicateurs et tables alphabétiques : pourquoi plusieurs séries ?**

Il existe, notamment pour les registres indicateurs et les tables alphabétiques, plusieurs séries. Certaines personnes, dont la créance était échue avant la mise en place d'une nouvelle série, et n'ayant pas contracté de nouvelle hypothèque, n'ont pas été reportées dans les séries les plus récentes. Il a donc été décidé de conserver l'ensemble des séries, et de les classer dans l'ordre de leur création. De même, certains registres paraissent des copies (mêmes noms de famille). Pour autant, il y a été relevé des différences, et ils figurent par conséquent dans cet instrument de recherche.

### **Conditions d'accès**

Les registres contiennent des informations d'ordre privé communicables après un délai de cinquante ans. Les collections allant jusque début 1956, tous les registres sont communicables.

Certains documents ne sont pas consultables en raison de leur mauvais état matériel. Ils sont repérés dans l'inventaire par la mention "C" (mauvais état) portée sur la partie droite.

### **Conditions de reproduction**

Les conditions de reproduction et de réutilisation des documents sont définies dans le règlement de la salle de lecture, au titre III.

### **Notes de l'archiviste**

Le travail de classement et d'inventaire a été réalisé par l'ensemble du personnel des Archives départementales de la Somme, sous la direction Arnaud Espel, attaché de conservation du patrimoine. L'introduction, sauf les parties rédigées par Georges-François Pottier des Archives départementales d'Indre-et-Loire, a été rédigée par Jean-Michel Schill, chargé d'études documentaires.

### **Date(s) de la description**

2011-2020.

# LES RECHERCHES, COMMENT FAIRE ?

*Le texte de cette fiche (adapté) est extrait de l'introduction du répertoire numérique de la sous-série 4 Q des Archives départementales d'Indre-et-Loire, rédigé par Georges-François POTTIER (2014).*

Avant de commencer les recherches, il faut au moins connaître :

- soit la référence aux registres d'hypothèques (cas n°1)
- soit l'identité précise du propriétaire et le lieu du bien immobilier (cas n°2)
- soit la date approximative de la mutation du bien ou de la créance (cas n°3).

Faute d'éléments suffisants, il est nécessaire de faire une recherche préalable dans un autre fonds :

- si l'on connaît uniquement le nom du notaire qui a passé l'acte, il faut se reporter aux **minutes notariales**, sous-série 3 E.
- si l'on connaît uniquement la commune où se trouve le bien recherché, il faut retrouver au moins un nom de propriétaire dans les **matrices cadastrales**, sous-série 3 P.

## Cas n°1 - La référence aux registres d'hypothèques est connue.

Cas le plus simple : le nom de la conservation, le numéro du registre et le numéro d'acte dans le registre sont connus. Il suffit de rechercher la cote en 4 Q, puis de consulter l'acte recherché.

Exemple : pour la conservation d'Abbeville, le registre de transcription n° 1920 correspond à la cote 4 Q 1/4296.

Attention, pour une même catégorie de registres et dans une même conservation, il peut exister plusieurs séries de registres successives. Plusieurs registres différents portent alors le même numéro d'origine. Dans ce cas la date de l'acte est nécessaire.

## Cas n°2 - L'identité du propriétaire (nom, prénom et, éventuellement, date de naissance) ainsi que le lieu où sont situés les biens sont connus.

**1<sup>ère</sup> étape** : chercher de quelle conservation dépend le lieu des biens.

Exemple, si le bien est situé à Fienvillers, il faut orienter les recherches dans la conservation de Doullens (et d'Abbeville après début 1927, suite à la suppression de la conservation de Doullens).

**2<sup>ème</sup> étape** : chercher le nom de la personne dans les registres indicateurs (ordre alphabétique des noms ; les prénoms ne sont pas mentionnés). À chaque nom correspondent le numéro de la table alphabétique à laquelle il faut se reporter et le numéro du folio de cette table.

**3<sup>ème</sup> étape** : à partir des données fournies dans le registre indicateur, se reporter aux tables alphabétiques. Le registre indicateur fournit le numéro d'origine de la table, il faut donc rechercher la cote correspondante en 4 Q.

**4<sup>ème</sup> étape** : à partir des données fournies dans la table alphabétique qui indique le numéro du répertoire et celui de la case (ou compte), se reporter aux répertoires. La table alphabétique fournit le numéro d'origine du répertoire, il faut donc rechercher la cote en 4 Q. Une même personne peut avoir plusieurs comptes dans des répertoires différents si elle a fait de nombreuses transactions.

Le compte est séparé en deux catégories :

- les actes transcrits (transcription, généralement sur la page de gauche).
- les créances inscrites (inscription, généralement sur la page de droite).

Dans chaque compte (ou case), figurent les références des registres de formalités (numéros des registres et des articles), les dates des transcriptions ou inscriptions, la nature de l'acte, le prix et éventuellement les mentions de radiation de la saisie, de péremption et de renouvellement.

Le répertoire fournit le numéro d'origine des registres de formalités, il faut donc rechercher la cote correspondante en 4 Q.

**5<sup>ème</sup> étape** : à partir des données fournies dans le compte du répertoire, se reporter aux registres de formalités (inscription ou transcription) en cherchant le numéro de l'acte.

**6<sup>ème</sup> étape** : au numéro de l'acte (ou du folio dans certains cas) de l'inscription ou de la transcription, consulter l'acte souhaité.

Il faut faire attention que pour une même catégorie de registres et dans une même conservation il peut exister plusieurs séries de registres successives. Plusieurs registres différents portent alors le même numéro d'origine. Dans ce cas la date de l'acte est nécessaire.

**Cas n°3 - Seule la date approximative de la mutation du bien ou de la créance est connue.**

Il faut consulter tous les registres qui contiennent la date supposée. Exemple, pour une transcription faite en 1898 à la conservation d'Amiens, il faut consulter les cotes 4 Q 2/5844 à 4 Q 2/5885 qui couvrent l'année 1898.

#### LIVRES DE RAISON (AN IV-AN VII)

*Ce document est l'ancêtre du répertoire des formalités hypothécaires.*

*Notes explicatives en pages de garde des registres : « Le présent registre ou LIVRE DE RAISON, est destiné à recevoir, sur chaque compte ouvert nominativement, l'extrait de toutes les inscriptions, des déclarations de nouvelles élections de domicile, des radiations, des transcriptions de contrat de mutations, et d'inscriptions des procès-verbaux d'affiches qui se font en exécution des lois rendues le 11 brumaire an VII, tant sur le régime hypothécaires, que sur les expropriations forcées, dans l'étendue de l'arrondissement du bureau de la Conservation des hypothèques établi à Péronne, département de la Somme. »*

*« La première page est consacrée exclusivement à constater tout ce qui est relatif à la propriété des biens territoriaux d'un même individu, et, par conséquent, à recevoir le relevé, par extrait, des deux premiers registres où tous les éléments de la propriété doivent être consignés, conformément à l'article 223 du code hypothécaire du 9 messidor, an 3. La seconde page doit recevoir le relevé par extrait des 3e., 4e. et 5e. registres, contenant tout ce qui est relatif aux dettes hypothécaires, dont les biens de ce même individu sont grevés. »*

*Les dates extrêmes indiquées dans nos analyses sont celles de l'inventaire des archives de la conservation, on ne sait à quoi elles correspondent. Sur les pages de gauche des registres, dans la colonne "Dates des actes", on a relevé an IV pour les plus anciens et 1844 pour les plus récents ; sur les pages de droite, colonne "Dates des hypothèques", c'est 1588 et 1854 (dates relevées au hasard, sans exhaustivité).*

Cote	N° primitif	Intitulé	Observation	C
4Q5/150		noms nouveaux		
4Q5/151		noms nouveaux		
4Q5/152		noms nouveaux		C

*Les registres comportent 297 comptes chacun (sauf le 1, 294). Ils ont été prévus pour un compte par double page, soit 100 en tout, mais les pages n'étant que partiellement utilisées, on les a divisées en trois comptes, en revenant à chaque fois au début. Ainsi, le 100 est à la fin, le 101 au début, sous le 1, etc.*
